Stanford University Press, United States, 2017. Paperback. Condition: New. 2nd edition. Language: English . Brand New Book. Since the initial publication of fourteen years ago, much has changed in Silicon Valley. The corporate landscape of the Valley has shifted, with tech giants like Google, Facebook, LinkedIn, and Twitter vying for space with a halo of applications that connect people for work, play, romance, and education. Established workers and those new to the workforce try to adjust. The second edition of brings the story of technological saturation and global cultural diversity in this renowned hub of digital innovation up to the present. In this fully updated edition, J. A. English-Lueck provides readers with a host of new ethnographic stories, documenting the latest expansions of Silicon Valley to San Francisco and beyond. The book explores how changes in technology, especially as mobile phones make the Internet accessible everywhere, impact work, family, and community life. The inhabitants of Silicon Valley illustrate in microcosm the social and cultural identity of the future.
