Excerpt: .in trying to determine the true longitude. For in so short a distance as there is from one point to the other, there cannot have I42 GALLEGO CRITICISED. been a mistake of 250 leagues. Whence I infer that, in such a long route as that from Lima to the Solomon Islands, the error would be much greater, the course being cast and west. If his narrative is considered, other obscure and contradictory points will be found. In one place he says that the natives told him that those islands to the S.E. were extensive, and that he saw them. Presently he says that a sailor climbed up a palm tree, and could not see them. He says that at the Island of Guadalcanal he could not see the end, and that the coast ran westward. Further on, he says that it would take six...
